Longmont United Hospital Kicks-off Orthopedic Health Lecture Series

(Longmont, CO.) On Tuesday, March 3, Longmont United Hospital will be kicking-off an Orthopedic Health Lecture Series from 6:00 to 7:00 p.m. Dr. Mark Hammerberg will be presenting all aspects of how to prevent and treat knee and hip injuries. New technology has opened options that were not available before such as computer navigation in hip and knee replacement surgery. Dr. Hammerberg will present how these new techniques work and the reduced recovery time. Please bring your questions.

Dr. Hammerberg is a board-certified orthopedic surgeon with Front Range Orthopedics. He is the only surgeon in Longmont with fellowship training in hip and knee replacement surgery. His interests include minimally invasive surgery and the use of computer navigation for hip and knee replacement surgery. Dr. Hammerberg has privileges at Longmont United Hospital.

For more information, contact Program Registration at 303.485.4184.
