Longmont United Hospital Lifts Visitor Restrictions

(Longmont, CO.) After careful consideration and consultation with the Colorado Department of Public Health and Environment, Dr. Patricia Gill, Medical Director of Infection Control, and Michael Langona, Director of Infection Control and Epidemiology, Longmont United Hospital removed their **VISITOR RESTRICTIONS** effective immediately. The hospital has been monitoring the H1N1 Influenza Pandemic and seasonal influenza within the United States and Colorado and believes that we can ensure the safety of their patients and healthcare workers without the visitation restrictions.
